# Jay Rakholiya

## Software Developer / Junior Developer

Portfolio: [rakholiyajay.portfolio](#)  
[github/rakholiyajay](#)  
[linkedin/in/rakholiya-jay](#)

Motivated and detail-oriented software developer with a strong foundation in frontend development, web3 technologies, and deployment strategies. As a recent graduate, my academic background and internship experience have equipped me with a solid understanding of modern web development practices. I am eager to leverage my skills and contribute to dynamic projects that allow me to further enhance my expertise and make a meaningful impact.

### SKILLS

Programming Languages	JavaScript, HTML, CSS
Frontend Development	React.js, Vue.js
Blockchain Technologies	Ethereum, Web3.js, Ethers.js
Web3 Integration	Metamask
Version Control	Git
Database	MySQL
Communication	English (Proficient), Hindi (Native), Gujarati (Native)

### TECHNICAL EXPERIENCE

#### Frontend Developer / Esign 03/2023 — 12/2023

*Vrinsoft Technology, Ahmedabad, Gujarat*

- Developed and implemented the front-end of the Esign-project, specializing in the digital signature module.
- Integrated Metamask for secure encryption and decryption processes, ensuring a robust and user-friendly digital signature experience.
- Collaborated with the backend development team to establish seamless communication between the front-end and back-end for document sharing functionalities.
- Designed and optimized the user interface to provide an intuitive and responsive platform for users to interact with the digital signature features.
- Contributed to the development of features allowing users to share documents in a securely encrypted fashion, fostering a reliable and confidential document exchange process.

#### Frontend Developer / Face recognition system 11/2022 — 02/2023

*Aditya Silver Oak (Project), Ahmedabad, Gujarat*

- Played a key role as a Frontend Developer in the development of a Face Recognition System, enhancing security measures for Aditya Silver Oak project.
- Implemented user interface components to facilitate seamless interaction with the Face Recognition System, ensuring a user-friendly experience.
- Collaborated with the backend development team to integrate front-end functionalities with the face recognition algorithms and data processing systems.
- Contributed to the design and optimization of the user interface, focusing on intuitive controls and responsive features.
- Successfully delivered the front-end components within the project timeline, enabling efficient and accurate face recognition capabilities for enhanced security measures.

#### Frontend Developer / Portfolio 05/2022 — 08/2022

*Individual Project, Ahmedabad, Gujarat*

- Developed a personal portfolio as a Frontend Developer, showcasing a range of skills and projects to demonstrate expertise and experience.
- Implemented an aesthetically pleasing and responsive user interface, ensuring a positive and engaging user experience for visitors.
- Utilized effective design principles to create a visually appealing layout and navigation, enhancing the overall presentation of the portfolio.
- Employed best practices in web development, including clean and maintainable code, to optimize the portfolio's performance and accessibility.
- Received positive feedback on the portfolio's design and functionality, contributing to a professional online presence and effective self-promotion.
